One of Bent Tree's Grand Old Homes—You'll Just Have to See it to Believe it!

This home was custom built to exceptional standards. You cannot drive by and get a feel for the spaciousness and the number of oversize rooms. The common living area will work equally well as very formal or very casual. The area includes an oversize living room, dining room and two 4-season sun-rooms! The large country kitchen works well and there is a large breakfast room. The master is on the main along with one guest bedroom. There is a huge home office on the main level. Floored storage up and 3rd bedroom and bath down + and oversize garage. Even has a dumbwaiter from the garage to the kitchen! Not many opportunities like this one! Shown by Appointment Only. Please Call Ben or Don.
